Acta Pædiatrica

Vol. 50 . 1961

Chief Editor PROFESSOR A. WALLGREN

Karolinska Sjukhusets Barnklinik, Stockholm 60

Co-Editor PROFESSOR B. VAHLQUIST

Akademiska Sjukhuset, Uppsala

REDACTORES:

In Dania: B. ANDERSEN, Aarhus, O. ANDERSEN, København, P. PLUM, København.

In Fennia: N. HALLMAN, Helsingfors, P. HEINIÖ, Helsingfors, V. RANTASALO, Helsingfors, C.-E. RÄIHÄ, Helsingfors, T. SALMI, Åbo, A. YLPPÖ, Helsingfors.

In Hollandia: S. VAN CREVELD, Amsterdam, J. VAN LOOKEREN CAMPAGNE, Groningen, J. P. SLOOFF, Eindhoven.

In Norvegia: R. RINVIK, Oslo, L. SALOMONSEN, Oslo, L. STOLTENBERG, Oslo, A. SUNDAL, Bergen.

In Suecia: C. GYLLENSWÄRD, Stockholm, J. LIND, Stockholm, B. LINDQUIST, Umeå, N. MALMBERG, Stockholm, S. SIWE, Lund, W. WERNSTEDT, Stockholm, R. ZETTERSTRÖM, Göteborg.

UPPSALA 1961

ALMQVIST & WIKSELLS BOKTRYCKERI AB

CONTENTS

Vol. 50, 1961

Original articles

AAS, K.: Nasal eosinophilia in so-called bacterial hypersensitivity in asthmatic children. Preliminary report 1

AAS, K.: The cellular excretion in the urine of normal newborn infants 361

BJÖRKLUND, S.-I.: ACTH-induced thymic atrophy 491

BJURE, J., LIDÉN, G., REINAND, T. and VESTBY, A.: A follow-up study of hyperbilirubinemia in fullterm infants without iso-immunization 437

BÖÖK, J. A., SANTESSON, B. and ZETTERQVIST, P.: Association between congenital heart malformation and chromosomal variations 217

BÖÖK, J. A., GUSTAFSSON, K.-H. and SANTESSON, B.: Chromosomal abnormality in a mongolism-like syndrome 240

BRANDT, S., BRÜNNER, S. and WESTERGAARD-NIELSEN, V.: Arteriographic studies in children with cerebral palsy 586

BROBERGER, O.: Studies of the immunological relationship between the antigens from different organs in human ulcerative colitis 577

BOSTRÖM, H. and WENGLE, B.: Studies on ester sulphates. 12. Excretion of sulphate acceptors in phenylketonuria 549

CELANDER, O. and THUNELL, G.: The "mercury-in-rubber" strain gauge for measurements of blood pressure and peripheral circulation in newborn infants 505

COLEMAN, E. N.: Time intervals in the electrocardiogram of healthy infants 377

CORT, R. L.: Fractional collection of urine in very small or ill infants 385

DAHL, M., MARKKANEN, T. and VANHA-PERTTULA, T.: The vitamin B_1, B_2 and C content in urine of premature and fullterm newborn infants 127

DANIELSSON, D. and LAURELL, G.: Identification of enteropathogenic *Escherichia coli* 0111: B4 by means of fluorescent antibodies 339

DOOREN, L. J., van GELDEREN, H. H. and VINK, C. L. J.: Exudative enteropathy 249

EIKEN, M.: Congenital obstructive emphysema in infants 17

EMERY, J. L. and HILTON, D. J.: The iron and copper concentration of the liver in intrauterine life and in hemolytic disease 233

ENGSTRÖM, L. and KAGER, L.: Concentration of fibrinogen in the plasma of healthy and of erythroblastotic and hyperbilirubinemic newborn infants 581

GEUBELLE, F. and de RUDDER, P.: Respiratory studies in children. II. Functional residual capacity in healthy children 277

GEUBELLE, F. and de RUDDER, P.: Respiratory studies in children. III. Variability of the lung volumes in healthy children 595

GLÜCK, E. and LAMVIK, J.: Bone marrow aplasia in childhood leukemia 141

GROTTE, G. and LUNDBERG, N. G.: Preliminary experiences with the Spitz–Holter ventriculo-caval shunt in the treatment of hydrocephalus 617

HALLGREN, B., LARSSON, H. and RUDHE, U.: Nocturnal enuresis in twins. II. Urethro-cystographic examinations 117

HANSON, L. Å. and HOLM, S. E.: Precipitating antibodies in human sera from different age groups and in colostrum as determined by streptococcal antigens with diffusion-in-gel methods 7

HANSON, L. Å. and MÅNSSON, I.: Immune electrophoretic studies of bovine milk and milk products 484

HATEMI, N. and MCCANCE, R. A.: Renal

aspects of acid-base control in the newly born. III. Response to acidifying drugs 603

HERZENBERG, H. and ESKELUND, V.: The morphological development of pulmonary arteries during the first years of life 263

LANZKOWSKY, P.: The effect of intramuscular iron-dextran complex on iron-deficiency anemia in otherwise ill infants and preschool children 25

LARON, Z. and KOWADLO, A.: Serum-total and (+)-tartaric-acid-inhibited acid-phosphatase activity in various diseases in childhood 371

LAURELL, G. and MELLBIN, T.: The bacterial flora of the upper respiratory tract and gut in children of nomad Lapps 469

LUNDSTRÖM, R., THORÉN, C. and BLOMQUIST, B.: Gamma globulin against rubella in pregnancy. I. Prevention of maternal rubella by gamma globulin and convalescent gamma globulin. A follow-up study 444

LUNDSTRÖM, R., THORÉN, C. and BLOMQUIST, B.: Gamma globulin against rubella in pregnancy. II. Manifest maternal rubella in early pregnancy treated with convalescent gamma globulin. A follow-up study 453

MELCHIOR, J. C.: The incidence of head injuries in children 47

MITHAL, A. and EMERY, J. L.: The influence of birth on the weights of the left and right cardiac ventricles in prematurely born infants 228

MOZZICONACCI, P., GERBEAUX, CL., CARAVANO, R., GERBEAUX, S., LABONEE, J., RAHMAN, S., RABCYNSKA, F., ORSAUD, E. and VIROLLEAU, P.: A study of group A hemolytic streptococcus carriers among school children. Part II. Significance of the findings 33

NYSTRÖM, K. G. and KARLSSON, K. A.: Sensitivity of *Listeria monocytogenes in vitro* to different antibodies and chemotherapeutics 113

OLIVER, T. K. Jr., DEMIS, J. A. and BATES, G. D.: Serial blood–gas tensions and acid-base balance during the first hour of life in human infants 346

PAPOUŠEK, H.: Conditioned head rotation reflexes in infants in the first months of life 565

PARMELEE, A. H., Jr.: Sleep patterns in infancy. A study of one infant from birth to eight months of age 160

PARKER, M. T. and WILLIAMS, R. E. O.: Further observations on the bacteriology of impetigo and pemphigus neonatorum 101

ROBINSON, P.: Undergraduate pediatric education in South-East Asia 329

ROCHE, A. F., SEWARD, F. S. and SUNDERLAND, S.: Growth changes in the mongoloid head 133

ROCHE, A. F.: Clinodactyly and brachymesophalangia of the fifth finger 387

SEIP, M.: Aplastic anemia treated with anabolic steroids and corticosteroids 561

STERN, L., GREENBERG, R. E. and LIND, J.: Catecholamine excretion in the newborn period: effect of short periods of induced hypoxia 497

STERNER, G., GERZÉN, P., OHLSON, M. and SVARTZ–MALMBERG, G.: Acute respiratory illness and gastroenteritis in association with adenovirus type 7 infections 457

TAYLOR, P. M., WOLFSON, J. H., BRIGHT, N. H., BIRCHARD, E. L. and EGAN, T. J.: Umbilical vein pressure in congestive heart failure in the newborn infant 51

TAYLOR, P. M., EGAN, T. J., BIRCHARD, E. L., BRIGHT, N. H. and WOLFSON, J. H.: Venous hypertension in the newborn infant associated with delayed clamping of the umbilical cord 149

TROLLE, D.: Discussion on the advisability of performing exchange transfusion in neonatal jaundice of unknown etiology 392

WEIJERS, H. A., van de KAMER, J. H., DICKE, W. K. and IJSSELING, J.: Diarrhoea caused by deficiency of sugar-splitting enzyme 55

Case reports

BLOOM, V. R.: Goitrous hypothyroidism simulating thyrotoxicosis 411

BONNEVIER, J. O.: A case of ataxia–teleangiectasia 283

BRORSON, L. O., FREDGA, K., HULTQUIST, G. T. and LUNDBERG, P. O.: Tuberous sclerosis in a mother and her newborn son 522

BRÜNNER, S.: Premature synostosis in the sternum 288

COTTOM, D. G. and WHITE, L. R.: A case of retro-pharyngeal lymphosarcoma presenting with blindness 511

van CREVELD, A. and KINGMA, M. J.: Subperiosteal hemorrhage in hemophilia A and B 291

HALVORSEN, S. and AAS, K.: Renal tubular defects in fibrous dysplasia of the bones. Report of two cases 297

KIE, A. T. S., WITTEBOL, P. and LUNDING, J.: Annular pancreas 72

LOKEN, A. C., HANSSEN, O., HALVORSEN, S. and JØLSTER, N. J.: Hereditary renal dysplasia and blindness 177

MEGAS, H., PAPADAKI, E. and CONSTANTINIDES, B.: Salmonella septicemia and aplastic crisis in a patient with sickle-cell anemia 517

MOBERG, A.: Aortic thrombosis and aortic medionecrosis in an infant 80

Subject index

Acid-base control, renal aspects of, response to acidifying drugs, 603
ACTH-induced thymic atrophy, 491
Adenovirus type 7 infection in acute respiratory illness and gastroenteritis, 457
African children, anemia, malnutrition and vitamin A deficiency in, 86
Anemia, aplastic, treatment with anabolic steroids and corticosteroids, 561
. iron-deficient, intramuscular iron treatment, 25
. sickle-cell, aplastic crisis in Salmonella septicemia, 517
Aorta medionecrosis in an infant, 80
Arteries, development of pulmonary, 263
Arteriographic studies in cerebral palsy, 586
Arthritis, benign aseptic, diagnosis and course of, 529
Asthma, bacteriological hypersensitivity in, 1
. nasal eosinophilia in, 1
Ascites, congenital, 87
Ataxia-teleangiectasia, 283
Atrial septal defects, familial, 212

Bacteriology (see also Infections)
. bacterial flora of upper respiratory tract and gut in children of nomad Lapps, 469
, impetigo and pemphigus neonatorum, bacteriology of, 101
, Listeria monocytogenes, sensitivity of, 113
, listeriosis, successful treatment of, 206
. streptococcus carriers, 33
Bilirubin (see also Hemolytic disorders and Hyperbilirubinemia)
. neonatal jaundice of unknown etiology, advisability of exchange transfusion, 392
, non-hemolytic hyperbilirubinemia, 322
Blindness and hereditary renal dysplasia, 177
, vitamin A deficiency, 86
Blood
. acid-phosphatase activity in ill children, 371
, anemia, aplastic, treated with anabolic steroids, 561
, intramuscular iron in, 25
, blood–gas tensions in newborns, 346
, fibrinogen in the plasma in newborns, 581
, hemoglobin, abnormal, 641
, hemolytic disease of the newborn, iron and copper content of the liver, 233
, hemolytic disorders in childhood, symposium on, 629
, therapy of, 645
, hemophilia A and B with subperiosteal hemorrhage, 291
, hyperbilirubinemia without iso-immunization, 437
, hypoproteinemia in exudative enteropathy, 322
, leukemia, bone marrow aplasia in, 141
, non-hemolytic hyperbilirubinemia, 322
, serum haptoglobin in infancy, 324
, sickle-cell anemia, aplastic crisis in (Salmonella septicemia), 517
Blood pressure, measurement of, in newborn infants, 505
, methods of measuring in newborns, 208
, umbilical vein pressure in congenital heart failure, 51
Bone marrow, aplasia in leukemia, 141

Yoshida, T. and Huizuiga, J.: Abstracts of Japanese Medicine, 216
Brachymesophalangia, 387

Cardiac arrest, successful treatment of, 399
Cerebral palsy, arteriographic studies in, 586
Cerebrospinal fluid, immune-electrophoresis of, in infections of the central nervous system, 321
, in premature infants, 316
Chromosomes, abnormality in mongolism-like syndrome, 240
, variations in malformations of the heart, 217
Circulation, peripheral, measurement of, 505
, studies of, in newborns, 208
Circulatory system, aortic thrombosis in an infant, 80
Clinodactyly, 387
Colostrum, precipitating antibodies against streptococcal antigen in, 7
Corticosteroids in the treatment of aplastic anemia, 561

Diabetes
, body composition of infants of diabetic mothers, 88
, influence of training on physical fitness in adolescent girls, 323
, juvenile, neurologic symptoms in, 205
Diarrhoea, deficiency of sugar-splitting enzyme in, 55

ECG-intervals in healthy infants, 313, 377
Electrophoresis, immune-, studies of bovine milk, 484
Emphysema, congenital, in infants, 17
Endocrine organs
, hypophyseal dwarfing, effect of durabolin in, 86
, hypothyroidism simulating thyrotoxicosis, 411
, hypothyroidism, studies of, 201, Suppl. 125
, Leydig cell tumor of the testis, 417
Enteropathy, exudative, 249, 322

Enuresis, nocturnal, in twins, 117
Enzymes
, acid phosphatase activity in illness, 371
, enzymatic activity of the intestines, determination of, 88
, sugar splitting, deficiency of, in diarrhoea, 55
Eosinophilia, nasal, in asthma, 1
Erythroblastosis, fibrinogen concentration in the plasma, 581
Esophageal atresia and tracheo-esophageal fistula in premature twins, 423
Exchange transfusion

, advisability of, in jaundice of unknown etiology, 392
, cardiac arrest during, successful resuscitation, 399

Fetus, iron and copper content of the liver in, 233
, mycosis in, 317
Fibrinogen in the plasma in newborn infants, 581
Flexor spasms (hypsarhythmia), prognosis of, 316
Fluorescent antibody technique in the identification of *E. coli* 0111:B4, 339

Gammaglobulin against manifest rubella in pregnancy, 453
, in the prevention of maternal rubella, 444
Gastro-intestinal tract
, bacterial flora of, in nomad Lapp children, 469
, determination of enzymatic activity, 88
, embryological investigations of, 94
, enteropathogenic *E. coli* 0111:B4, identification of (fluorescent antibody technique), 339
, enteropathy, exudative, 249, 322
, gastroenteritis in association with adenovirus type 7 infections, 457
, peptic ulcer, clinical and psychiatric aspects, 205
, peptic ulcer in children, 431
, protein-losing enteropathy in seneciosis, 211
, with edema, 322
Gaucher's disease, juvenile form with neurological symptoms, 323
Genetics (see also Heredity)
, chromosomal abnormality in mongolism-like syndrome, 240
, heart malformations and chromosomal variations, 217
Genitals
, Leydig cell tumor of the testis, 417

Hamman-Rich syndrome, 404
Haptoglobin in infancy, 324
Head injuries in children, 47
Heart
, atrial septal defects, familial occurrence, 212
, cardiac arrest during exchange transfusion, successful treatment, 399
, chromosomal variations in malformation of the heart, 217
, congenital heart disease, Suppl. 128
, congestive heart failure in newborns, 51
, ECG-intervals in healthy infants, 313, 377
, ventricles in premature infants, influence of birth on weight of, 228
Hemoglobin, abnormal, pathogenesis and diagnosis, 641
Hemolytic disorders
, biochemical aspects of pathogenesis and diagnosis, 638
, classification and diagnosis of, 629
, serological aspects of pathogenesis and diagnosis, 635
, in childhood, symposium on, 629
, therapy, 645
Hemolytic disease of the newborn, iron and copper content of the liver, 233
Hemophilia, subperiosteal hemorrhage in, 291
Hemorrhagic disorders
, hemophilia A and B, subperiosteal hemorrhage in, 291
, thrombocytopenic purpura in infectious mononucleosis, 91
Heredity (see also Genetics)
, familial septal defects, 212
, fibrosis of the liver, 209
, renal dysplasia, 177
Hydrocephalus
, in infants with meningo-myelocele, 210
, treatment of, with Spitz–Holter ventriculo-caval shunt, 617
Hyperbilirubinemia (see also Hemolytic disorders)
, plasma-fibrinogen in, 581
, without iso-immunization, 437
Hypertension, venous, in newborns, associated with delayed clamping of the umbilical cord, 149
Hypoglycemia in children, 205
Hypoproteinemia in exudative enteropathy, 322

Hypothyroidism, simulating thyrotoxicosis, 411
, studies of, 201, Suppl. 125
Hypoxia, catecholamine excretion in newborns during induced hypoxia, 497

Icterus and xanthomatosis, 171
Immunology (see also Vaccines)
, antibody formation after smallpox-vaccination during the first months of life, 321
, antibodies, precipitating, against streptococcus, 7
, fluorescent antibody technique in identification of *E. coli* 0111:B4, 339
, immune-electrophoretic studies of milk, 484
, quadruple vaccin, use of, 210
, triple vaccination, methods and untoward effects, 316
Infections
, enteropathogenic *E. coli* 0111:B4, identification of, by means of fluorescent antibody technique, 339
Infectious mononucleosis with thrombocytopenic purpura, 91
Intoxications (see also Poisoning)
, *Senecio vulgaris* and veno-occlusive liver disease, 211
, water intoxication, 89
Ionisation, experience with air-, 95

Jaundice, neonatal, of unknown etiology, exchange transfusion in, 392
Jetex poisoning, 319

Laboratory methods: ultramicromethods in the clinical laboratory, 321
Leukemia, bone marrow aplasia in, 141
Listeriosis, sensitivity of, 113
, successful treatment of, 206
Liver
, cirrhosis due to intoxication with groundsel, 211
, congenital fibrosis of, as a familial defect, 209
, iron and copper content of, 233
, veno-occlusive disease and protein-losing enteropathy, 211
Lung volumes, variability of, in healthy children, 595
Lymphosarcoma, retropharyngeal, with blindness, 511

Meningitis, follow-up study of, 95
, immune-electrophoresis of the CSF in, 321
, meningococcal with unusual complications, 208
Meningo-myelocele, hydrocephalus in, 210
, mercury-in-rubber strain gauge for measurement of blood pressure and circulation in newborn infants, 505
Metabolism, inborn error of, metabolic screening of urine, 317
Milk, cow, immune-electrophoretic studies of, 484
Mongolism, chromosomal abnormality in mongolism-like syndrome, 240
, growth changes of the head, 133
Mycosis, prenatal, 317

Neurology
, ataxia-teleangiectasia, 283
, bulbar paresis and muscular hypoplasia, 86
, cerebral palsy, arteriographic studies in, 586
, cerebral tumor (infundibuloma), 207
, crebrospinal fluid in premature infants, 316
, flexor spasms (hypsarrythmia), 316
, Gaucher's disease with neurological symptoms, 323
, head rotation reflexes, conditioned, in the first months of life, 565
, hydrocephalus, development of, in infants with meningo-myelocele, 210
, treatment with Spitz–Holter ventriculo-caval shunt, 617
, immune-electrophoresis of the CSF in meningitis and polyradiculitis, 321
, intracerebral calcifications due to mycosis, 317
, meningitis, follow-up study of, 95
, meningococcal, with unusual complications, 208
, neurologic symptoms in juvenile diabetes, 205
, pneumoencephalography, Suppl. 127

, tuberous sclerosis in mother and child, 522
Newborn infants
, acid-base control, renal aspects of, 603
, atelectasis, treatment of, 206
, blood gas tensions and acid-base balance, 346
, blood pressure and circulation, peripheral, measurement of, 505
, methods of measuring, 208
, catecholamine excretion in induced hypoxia, 497
, cellular excretion in the urine, 361
, circulation, peripheral, studies of, 208
, cold injury in, 315
, heart failure, umbilical vein pressure in, 51
, hip joint, preluxation of, Suppl. 129
, hypertension, venous, in delayed clamping of the cord, 149
, listeriosis, successful treatment of, 206
, sensitivity of Listeria monocytogenes, 113
, of diabetic mothers, body composition of, 88
, plasma-fibrinogen in hyperbilirubinemic and healthy infants, 581
, polycystic kidneys in, 185
, tuberous sclerosis in mother and infant, 522
, vitamin B_1, B_2 and C content of urine, 127

Osteodysplasia, traumatic, 209

Pancreas, annular, 72
Paternal age and "fetopathy", 206
Pediatric teaching in S.E. Asia, 329
Peptic ulcers in children, 431
Phenylketonuria, excretion of sulphate acceptors in, 549
Pica of matches, 319
Pituitary gland: hypophyseal dwarfing, effect of durabolin in, 86
Pneumoencephalography, Suppl. 127
Poisoning (see also Intoxication)
, saffron, 318
, Jetex, 319
, symposium on, 318
, pica of matches, 319
, vitamin A, 319
Polyradiculitis, immune-electrophoresis of the CSF in, 321
Premature infants
, crebrospinal fluid in, 316
, serum proteins in, 93
, twins with esophageal atresia and fistula, 423
, vitamin B_1, B_2 and C content in urine, 127
, weight of right and left cardiac ventricles after birth, 228
Psychiatry: suicidal attempts in adolescents and children, 323
Purpura, thrombocytopenic, in infectious mononucleosis, 91

Reflexes, conditioned head rotation, in the first months of life, 565
Renal dysplasia, hereditary, and blindness, 177
Respiratory tract
, atelectasis, sternal elevation in, 206
, acute illness in association with adenovirus type 7 infection, 457
, bacterial flora of, in nomad Lapp children, 469
, emphysema, congenital, 17
, functional residual capacity in healthy children, 277
, Hamman–Rich syndrome, 404
, lung volumes, variabiiity of, in healthy children, 595
, pulmonary arteries, development of, 212, 263
, lung-tumors, two cases of, 93
Rheumatoid arthritis, diagnosis and course of, 529
Rickets, vitamin D resistant, 87
Rubella, maternal, treatment with convalescent gammaglobulin, 453
, prevention of, by gammaglobulin and convalescent gammaglobulin, 444

Saffron poisoning, 318
Salmonella septicemia in sickle-cell anemia (aplastic crisis), 517
Schoolchildren, streptococcus carriers, 33

Seneciosis and protein-losing enteropathy, 211
Septicemia, Salmonella, and aplastic crisis in sickle-cell anemia, 517
Skeleton
, arthritis, rheumatoid and benign aseptic, diagnosis and course of, 529
, clinodactyly and brachymesophalangia of the fifth finger, 387
, fibrous dysplasia of the bones with renal tubular defects, 297
, generalized diseases in children, 205
, hip joint, preluxation of in newborns, Suppl. 129
, osteodysplasia, traumatic, 209
, rickets, vitamin D resistant, 87
, synostosis (premature) of the sternum, 288
Skin diseases
, ataxia-teleangiectasia, 283
, bacteriology of impetigo and pemphigus neonatorum, 101
, xanthomatosis and jaundice, 171
Sleep disturbances in infancy and childhood, 212
, patterns and disturbances, 160, 320
Smallpox vaccination during the first trimester of life, 321
Social pediatrics, mothers' homes, current problems of, 207
Spitz–Holter ventriculo-caval shunt in treatment of hydrocephalus, 617
Streptococcal infection of the throat, xantocid treatment of, 320
Streptococcus, group A hemolytic carriers among school-children, 33
Suicide, attempts of, in adolescents and children, 323

Thrombocytopenic purpura in infectious mononucleosis, 91
Thymus, ACTH-induced atrophy, 491
Toxoplasmosis in children, 304
Tuberous sclerosis in mother and child, 522
Tumor
, cerebral (infundibuloma) with cachexia, 207
, Leydig-cell tumor of the testis, 417
, lung, two cases of, 93
, lymphosarcoma, retropharyngeal, 511

Urinary tract
, cellular excretion in the urine of normal newborns, 361
, collection of urine, fractional, in very small infants, 385
, polycystic kidneys in childhood, 185
, renal aspects of acid-base control in the newly born, response to acidifying drugs, 603
, renal dysplasia, hereditary, 177
, renal tubular defects in fibrous dysplasia of the bones, 297
, urethro-cystographic examination in nocturnal enuresis, 177
Urine, cellular excretion in normal newborns, 361
, excretion of sulphate acceptors in phenylketonuria, 549
, fractional collection of, in very small infants, 385
, metabolic screening of, for detection of inborn error of metabolism, 317

Vaccines, pertussis, experience with, 91
, quadruple, the place of, in immunization, 210
, smallpox vaccination during the first trimester of life, 321
, triple, experience with, 91
, methods and side-effects, 316
Virus diseases
, adenovirus type 7 in acute respiratory illness and gastroenteritis, 457
, infectious mononucleosis, thrombocytopenic purpura in, 91
Vitamins
, chronic intoxication with vitamin A, 319
, D vitamin resistant rickets, 87
, vitamin B_1, B_2 and C content of the urine of newborns, 127

Water intoxication, two cases of, 89

Xanthomatosis and jaundice, 171
